The VanAllen Group's Emergency Response Planning Workshop Obtains PDP Approval

Contact: [Jeff Agur](#)

Atlanta, GA, May 17, 2006 – The VanAllen Group, a leading business aviation consulting firm, is pleased to announce the addition of its Emergency Response Planning Workshop to NBAA's Professional Development Program (PDP).

The highly interactive two-day workshop has been attended by hundreds of aviation professionals throughout the world. The course provides comprehensive information on properly responding to aircraft accidents and incidents. It is tailored specifically to the unique requirements of business aviation. The workshop is recommended for all members of the Corporate Flight Department as well as representatives from Human Resources, Risk Management, Communications/Public Relations, Legal, Security, and Finance.

"The PDP approval is great news for those pursuing NBAA's Corporate Aviation Manager (CAM) certification," states Jeff Agur, VanAllen's Managing Director. "This is an important program and we have been very proud to offer it throughout the years. The PDP approval reinforces the fact that Emergency Response Planning is an important tool for current and future Aviation Department leaders."

The course is offered twice a year: once in the spring preceding Flight Safety Foundation's Corporate Aviation Safety Seminar (CASS) and once in the fall preceding the NBAA's Annual Convention.
